***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14 and 23-25 are, drawn to a selective catalytic reduction apparatus, classified in class 422, subclass 173.
  - II. Claims 15-22 are, drawn to a method for the selective catalytic reduction of nitrogen oxides, classified in class 423, subclass 239.1.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, which does not require injecting a reducing agent, passing flue gas through a first layer of nitrogen oxide reducing catalyst and then passing the flue gas through a heat exchanger that removes heat and mixes the flue gas with a reducing agent as well as passing the flue gas through at least one additional layer of nitrogen oxide reducing catalyst.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1754

5. A telephone call was made to Rob Carpenter on 5/5/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonas N. Strickland whose telephone number is 571-272-1359. The examiner can normally be reached on M-TH, 7:30-5:00, off 1st Friday.
